

Cal Poly Pomona Children's Center
Parent Occupations & Special Interests

In an effort to enhance and improve our program, The Children's Center would like to ask you if you have an occupation, a hobby or a special talent that you might be willing to share with us. For example, a parent who was a dentist taught the children about good dental hygiene. Another parent who belongs to a Filipino dance group came in to dance for the children. Another parent, a mechanic, fixed our outside "misters." So, please fill out the following questionnaire for us. We might ask you to assist us while we continue to provide a quality program. Thank you.
